

## Cattle Feeders

A completely portable, round modular cattle feeder, designed for durability, efficiency, ease of use and significantly cheaper transport.

CAPACITY: 9.5m³  
DIAMETER: 4,284mm  
HEIGHT: 2,720mm  
BASE WIDTH: 3,485mm

## Pumps and Water Tank Accessories

Team Poly recommend Davey and ClayTech pumps.

Bare Pump Box

### RAINBANK EVO SYSTEM

- All-in-one system incorporating a submersible pump, switching device and optional filtration.
- Sits neatly out of view in the top of the tank to reduce pipework.
- Ideal for metropolitan rainwater harvesting needs across homes, garden irrigation and toilet blocks.
- Connections must be fitted by a licensed plumber

## Underdeck Tanks

### 1000L

HEIGHT: 620mm  
WIDTH: 1,225mm  
LENGTH: 2,420mm

### 2000L

HEIGHT: 960mm  
WIDTH: 1,225mm  
LENGTH: 2,420mm

## Industrial Molasses Tanks

We offer a specialised consulting service for the supply of custom-fitted industrial tanks for a range of applications in the market sectors of industrial liquid storage, chemical storage, liquid feed and fertiliser.

### 1,000L - 50,000L

- Established national distribution service.
- Manufacturing sites in Queensland, New South Wales, Victoria and South Australia.
- Tanks designed and manufactured to align specific industrial requirements.
- Full range of fittings and attachments fitted to your specifications.
- 5 year pro rata warranty.

## Cartage Tanks

### SIZES 200L - 1,000L

- All tanks 500L and above are baffled.
- All tanks feature sump.
- Tank feature moulded 50mm Outlet.
- Screw on lid and breather are provided.
- 5 year pro rata warranty (tank only).

	Length	Width	Height	
200L	990mm	610mm	750mm	\$
300L	1380mm	610mm	750mm	\$
500L	1280mm	820mm	940mm	\$
1000L	1530mm	1200mm	1060mm	\$

## Stock Storage Tanks

### 900L

WALL HEIGHT: 900mm  
TOTAL HEIGHT: 1,200mm  
DIAMETER: 1,300mm

### 2300L

WALL HEIGHT: 970mm  
TOTAL HEIGHT: 1,200mm  
DIAMETER: 1,950mm

Storage tanks are designed to be stackable when empty and outlets can be installed in any position.

## Delivery of your Team Poly water tank

When ordering large Team Poly Water Tanks, 9,000L and above, please complete the following checklist.

1.	Delivery site / access free from overhead obstruction (e.g. Overhanging tree branches or power lines) <b>5.3 metres high minimum clearance</b> and flat level access.
2.	Sufficient parking and turning circle for truck and trailer <b>19m L x 5.3m H x 2.8m W</b>
3.	Ground surface flat, firm and dry to avoid the truck or trailer sinking or shifting during delivery.
4.	Identify and advise Team Poly of any hazardous or unsafe work environment conditions on site.

For occupational health and safety reasons there must be a sufficient number of adult able bodied persons available to assist the driver with delivery of your tank (refer table below). Customers should also be aware that insufficient labour on site may delay delivery or incur additional delivery costs.

NUMBER OF ADULT PEOPLE REQUIRED (excluding the Team Poly driver)	LITRES	GALLONS
1 person	Tanks up to and including 9,000L (includes Slimlines)	2,000 gallons
2 people	13,500 litre	3,000 gallons
3 people	22,500 – 27,000 litres	5,000 – 6,000 gallons
4 people	40,950 – 50,050 litres	9,000 – 11,000 gallons

## Recommended Site Preparation

**Correct site preparation is essential to ensure a long and trouble-free life for your tank.**

It is essential to have your water tank on a **FLAT LEVEL COMPACTED BASE**. The base of your water tank must be fully supported at all times.

### Concrete slab

Concrete slab must be at least 25mpa and 100mm (4") thick with F62 mesh halfway through the mix. It should be screeded flat and level with no high or low spots. The finished surface should have a trowelled finish.

### Crusher dust

Crusher dust bases must be 150mm (6") wider than diameter of the water tank and prepared as follows:

- Remove at least 100mm (4") of natural earth, ensuring the base is flat and level.
- Refill with at least 75mm (3") of crusher dust thoroughly mixed with dry cement powder for a 4m (13') base we suggest 2-3 bags of cement powder.
- Once spread, thoroughly compact the crusher dust with suitable compacting equipment, not by any other means.
- Thoroughly screed the surface and ensure the finished surface is perfectly **FLAT AND LEVEL** and free of stones, tree roots, etc. Do not water to set the cement powder, natural moisture will do this when your tank is in position.

Note: Sand is not acceptable.

Inspect the base regularly checking for and rectifying any undermining by water run-off or animals burrowing such as toads and mice.

### Molasses tanks

Molasses tanks must have a concrete slab or suitably constructed tank stand with flat level deck to be considered for warranty.

## Warranty

\*See the Team Poly website for details of the warranty. [www.teampoly.com.au](http://www.teampoly.com.au)

Team Poly Tanks Pty Ltd. ABN 79 162065778
